
Left for Dead - Demo!

This thread discusses the Content article: Left for Dead - Demo!

Has anyone else played the demo yet? Went to a LAN last weekend and it was the highlight of event. Would definately recommend this even with the rather steep price tag.

Word of warning though, not for the faint of heart or easily scared! Recommended playing with the lights off for sure!

I have bought this game (when it was on offer one weekend) and I have to say I love it! I like to stand on a roof popping off the zombies adn whatching their heads explode!

Can't wait to get some co-op games going at a LAN.
