

Command & Conquer 12th Birthday Celebrations

In celebration of Command & Conquers 12th Anniversary the original Command & Conquer game is now free to download!

According to the website, their will be more celebrations to come (cross fingers for Red Alert!)

Head on over the their website to grab the isos or read more for the direct links...

Thanks largely to the efforts of our loyal fans whom continue to sustain and grow the Command & Conquer community, Command & Conquer has become a legendary franchise and it's time to celebrate its birth once again.

In order to give back to the fans for over 12 years of devotion we are putting together a 12th Anniversary celebration during the month of September. However, as any Command & Conquer fan knows, the true party starts today, August 31st, which marks 12 years since Command & Conquer Gold launched way back in 1995.

To kick the celebration off, today we have a special surprise which we are certain new and old Command & Conquer fans will enjoy. We are providing the original Command & Conquer Gold as a free download, compatible for Windows XP! This is the same version included with the collectors pack Command & Conquer: The First Decade, and is now available for you to download for free!

PLEASE NOTE BEFORE DOWNLOAD:

We are providing the ISO image of C&C GOLD for both the GDI and Nod discs. In order for C&C GOLD to run on Windows XP, you will need to burn the ISO image onto a CD with a CD Burner and any "CD Burning Software" such as Nero, Alcohol, etc. There are also a few extra steps in order to make C&C GOLD run on Windows XP after you burn it to CD. Please click the link below for the exact instructions after you download both files!
